## About this trip

We offer you this exciting, unique chance to walk through the heart of Switzerland - from the Alpi-Alp to the Bernese Alps. Expect to be stunned with the scenery and the alpine wildflowers in a more unknown part of the stunning Swiss Alps. In the words of a guest from last year .. " I would definitely do it all over again. It was a really magic week for me. I loved all the chats and laughs and the bond between us that developed over the days was very special. The group dynamic which began on the first evening swimming in the lake in Sarnen just grew and grew into a camaraderie which was very special to be part of. Claudia is a great guide. It was an unforgettable experience" Do join us to have your own magical experience - you won't regret it!

This is a wonderful hike through an area of Switzerland that is not one of the usual locations for tourists so not too busy. Because we are hiking through remote areas we will be carrying our own backpacks – you need to be used to mountains and have strong legs and backs! Definitely 4 Goats!

We will provide a kit list but prepare to travel light making sure you have a sleeping sheet, water bottle, sun hat , sandwich wrap(something light to carry sandwiches) and layers of clothes.

We hike from the centre of Switzerland to the "giants" of the Bernese Oberland. The view extends from Pilatus and Rigi in Central Switzerland with views of the mountains of Susten and Grimsel to Rosenluis, Schreckhorn, Finsteraarhorn, Eiger, Mönch and Jungfrau. For thousands of years, the River Aare has made its way through the rocks in the Aare Gorge – prepared to be impressed. This is a stunning hike.
